  ❖ Coordination of grant applications and contacts can be difficult

  ❖ Private foundations often accept only one application or letter from an institution – sending more than one doesn't look good

  ❖ Grants web page to help coordinate information: list of funders contacted to prevent conflicts

  ❖ A "grants process group" has been meeting to provide feedback on the grants process and grant applications

Grant Approval

❖ Approval Process

  ❖ "Grant Summary Sheet" to provide information about grant, including the college's commitments

  ❖ Approval by Vice President
