

Teaching and learning in drama:

There are several, most of the helpful teaching tools are by contacting theatres directly.

Most helpful is the www.theatrehistory.com webpage and <http://www.10-minute-plays.com>

There are two major organizations that pair theatre and education: one of which is the Kennedy Center, American College Theatre Festival. www.kcactf.org, the other is the Association For Theatre In Higher Education (ATHE) www.athe.org.

The other leader is USITT ñ United States Institute for Theatre and Technology www.usitt.org
