

## Exam 1 Review for Ocean 115

Geography

Blank Maps- Identify Features

How Many Continents? List all the continents

North American Continent Features Physical & Oceanic:

Craton- Great Plains

Canadian Shield

Rockies

Appalachians

Ozarks

Cordillera #1

- Alaskan Range

- Cascades

- Coast Ranges

- Sierra Nevada

- Transverse Range-San Gabriel, San Bernardino

Peninsular Ranges (Baja)

Sierra Madre

Gulf of Mexico

Gulf of California (Vermillion Sea, Sea of Cortez, Mar de Cortes)

Great Lakes

Great Basin (Basin + Range)

Great Salt Lake

Hudson Bay

Caribbean Sea

Pacific Ocean

Atlantic Ocean- Bermuda Triangle

Bering Strait

- Diomedes West

- Diomedes East

Sonoran Desert

Mojave Desert

Mississippi River

Columbia River

Rio Grande

Colorado River

Islands:

-Cuba

-Hispaniola

-Jamaica,

-Bahamas

-Puerto Rico

-Midriff Islands

Mt. McKinley – Alaska Tallest Mountains for NA

Isthmus of Panama

---

South America Physical & Oceanic Features

Cordillera #2

-Andes

Mount Aconcagua- Tallest Mountains for SA

Lake Titicaca

Amazon River

Amazon Rainforest (Basin)

Patagonia

Antarctic Ocean (Southern)

Falkland Islands

Pacific Ocean

Atlantic Ocean

Equator- 0° latitude

Atacama Desert

---

Africa Physical & Oceanic Features:

Sahara  
Nile River  
Lake Victoria  
Mount Kilimanjaro Tallest in Africa  
Savannah  
Madagascar  
Cape Cod  
Mediterranean Sea  
Indian Ocean  
Atlantic Ocean  
Red Sea  
Strait of Gibraltar (Pillars of Hercules)  
Canary Islands  
East African Rift  
Lake Chad  
Lake Tanyanka  
Congo Rainforest  
Serengeti  
Sahel  
Sinai Peninsula

---

Europe Physical & Oceanic Features:

Alps  
Mediterranean Sea  
Atlantic Ocean  
Black Sea  
Sea of Azov- Shallowest Saltiest Sea in the world  
Caspian Sea  
Baltic Sea  
North Sea  
Dniiper Sea

Iceland

Iberian Peninsula

Netherlands

---

Asia Physical & Oceanic Features:

Ural River

Mediterranean Sea

Volga River

Yellow River

Black Sea

Sea of Azov

Caspian Sea

Dniester River

Lake Baikal- Deepest in the world

Arctic Ocean (Northern)

Kamchatka

India

Indonesia

Gobi Desert

Tibetan Plateau

Himalayas- Mt. Everest

Tigris- Euphrates River

Persian Gulf -Strait of Hormuz

Sri Lanka (Ceylon)

Philippine Islands

Indus River

Brahmaputra River

Aral Sea

Taiga

Caucasus Mt.

New Guinea

Tundra

Siberia

---

Australia (Oceania) Physical & Oceanic Features:

Great Sandy Desert

Uluru (Ayer's Rock)- Alice Springs

Blue Mountains

New Zealand- 2 Islands

-North

- South- Southern Alps (Mt. Cook)

Tasmania

Great Barrier Reef

- Cairns, Queensland

Tallest Eucalyptus Trees

Shark Bay- Western Australia- Oldest Living Stromatolites

Pilbara- Iron Deposits & Diamonds

Fiji

Solomon Islands

Midway Islands

Hawaii (USA)

Samoa (USA & British)

---

Antarctica Physical & Oceanic Features:

Largest Continental Ice Sheet
