

Program Level Student Learning Outcomes
Ceramics Department, Glendale College
Prepared: December 12^h, 2008

Mission Statement

The ceramics program certificate is intended for students that wish to work in ceramic industry. The ceramics program offers nine sections of classes to give students a wide spectrum of information to ready them for a career in ceramics or to further their studies as a transfer student.

Certificate Learning Outcomes:

Students who complete a certificate in ceramics will be able to:

1. demonstrate skill in a broad range of ceramic techniques;
2. define and use core concepts used in the ceramic area;
3. produce original work that demonstrates a high level of craft;
4. describe, analyze and provide criticism of ceramic work;
