#### Board Policy

#### **Community Relations**

The Board of Trustees recognizes the right of, and the responsibility to, the public to be informed of its activities, actions, and policies concerning the details of its educational programs and services.

The Superintendent/President is authorized by the Board to oversee and monitor publications which provide information to staff and community members on district programs and activities.

Regulations and procedures should be established to ensure that all district publications and media efforts reflect accuracy, high quality, and professional standards.
