

Glendale Community College District

4050

Board Policy

COURSE AND PROGRAM ARTICULATION

It is the policy of the Glendale Community College district that its courses and programs are articulated with proximate four-year colleges and high schools. All agreements are developed and coordinated under the direction of the campus articulation officer and approved (as required) by the college curriculum committees.

The procedures may also support articulation with institutions, including community colleges and those not geographically proximate, which are appropriate and advantageous for partnership with the District.
