GCC Community:

I would like to bring to your attention three new online resources for information about GCC from the Office of Research, Planning, and Grants.

1) Campus Profile Online

A new online version of the Campus Profile can be accessed at the following web address:

http://www.glendale.edu/campusprofile

The paper version of the Campus Profile has been published every year since 1989. Starting this year, the main way to access the Campus Profile data will be through the web. Only a few paper Campus Profiles will be printed for external audiences. (A PDF of the paper version will be available later this month if you need to download and print a copy.)

Please check out the online Campus Profile. We would appreciate your feedback.

2) GCC Research Tumblr Blog

We have set up a new blog on Tumblr called gccresearch (http://gccresearch.tumblr.com). This blog highlights data and other information about GCC, including photos, and is being updated regularly. Tumblr focuses on short posts and images rather than long posts, so this resource will show mostly graphs and quick bits of information.

3) @gccresearch on Twitter

The third resource is a Twitter feed, @gccresearch, that focuses on disseminating brief data about GCC. Go to http://twitter.com/gccresearch to view the Twitter feed, or follow @gccresearch on Twitter.

We hope these resources will keep the college community informed about demographics, trends, research, planning, grants, accreditation, program review, etc. Please check them out and send me any feedback you have. Thanks.
