Intel is seeking candidates for Manufacturing Technician (BS): Biology Chemistry Physics and related majors

## Your talents. Our mission, A winning combination.

Join Intel development team to discuss the advancement of Silicon process technology and how they brought advanced technologies to High Volume Manufacturing years ahead of its competitors. As we look to 2016 and beyond, Intel will continue its investment in inventing and developing new technologies.

Date: Wednesday, March 16th  
Time: 12:30- 1:30PM  
Location: San Fernando Building 113
