Action Plan from the most recent assessment

Instructors should continue to assign oral comprehension activities via the Supersite, in the lab section on the Supersite, and in class to continue achieving high levels of oral comprehension. In addition, instructors should allot time to discuss the cultural differences before and after watching videos to ensure that students understand the nuances, especially in regards to the subject matter of each chapter (like Chapter 10 which deals with the doctor's office and health issues in Spanish speaking countries). If this cultural difference had been discussed before watching the video, perhaps the students who missed #5
