ILO Title ILO 1 Communication

ILO Description communicate clearly, demonstrate critical thinking, and apply knowledge utilizing writing, speaking, presenting and other modes of communication

BAJA ACADEMIC

PLO001324

Perform better in field-based courses compared to the same course on campus

Last Plan Last Assessed Date 9/1/2014 Last Result 3 - Met Expectations

Recruit additional instructors to offer this enhanced learning experience with a field component.

BAJA SATISFACTION

PLO001325

Report high levels of satisfaction with the Baja California Field Studies program

Last Plan Last Assessed Date 9/1/2014 Last Result 3 - Met Expectations

Work on developing additional outreach activities to spread the word about the Program more widely. Apply for Foundation and CPS grants to supply additional equipment for the Field station as well as upgrades and maintenance of the facility.

BIO SUCCESS

PLO001327

be well-prepared for upper-division biology courses

Last Plan Last Assessed Date 11/10/2013 Last Result 3 - Met Expectations

Overall, we are satisfied that our students are well prepared for upper division coursework in Biology after transfer. In the future, we would like to obtain data from additional institutions (Cal State Long Beach, UC Irvine, UC San Diego) that are prime targets for our Biology major transfer students.

BIO TRANSFER

PLO001328

be well-qualified as transfer students to a 4 year university Biology program

Last Plan Last Assessed Date 6/15/2014 Last Result 3 - Met Expectations

While we are pleased with the transfer success of our Biology majors, a worrisome trend is that only 2 of the 13 students completing Biology 102, but remaining at GCC for another year before transfer, planned to enroll in Biology 103. This is likely due to a change in our articulation agreement with UCLA, the most popular destination for our transfer students. We plan to work with our articulation officer in an attempt to reinstate and/or initiate favorable

HS ANATOMY AND PHYSIOLOGY

PLO001329

Identify anatomical structures and describe the functions of important systems in the human body

Last Plan Last Assessed Date 11/11/2013 Last Result 3 - Met Expectations

We are pleased with the success rate of the students who completed Bio120-Human Anatomy and Bio 121-Physiology courses. However, the 30% withdrawal rate is of concern. To increase the completion and success rate, we would like to offer student tutoring services to the Biology 120 and Biology 115 students in the Tom Rike Study room. In addition, we would like to obtain more anatomy models for the study room so students will have more access to the
