# Veterinary Assistant

## Helping You Change Your Career - and Your Future

When you're looking to make a change in your life, and for a school to help you get there, look no further. We're committed to helping you identify a career where you can succeed by providing the training to get you ready. We offer a unique environment designed to help students excel — with hands-on learning, small work teams and instructors who make learning interesting. You get to practice in a real-world setting, so you get everything you need to start — and flourish — in your new career.

### Making Learning Interesting

- Specializing in Hands-On Learning
- Flexible Class Schedules
- Instructors with Real-World Experience
- A Close Community of Students and Instructors

## Program Information

Veterinary Assistants and laboratory animal caretakers look after animals in laboratories, animal hospitals, and clinics. They care for the well-being of animals by performing routine tasks under the supervision of veterinarians, scientists, and veterinary technologists and technicians. Upon successful completion of the Veterinary Assistant Program, the student will receive a certificate of completion. Students will be prepared to handle animals, examine them for injuries and diseases, clean and disinfect cages and work areas, sterilize equipment and communicate with pet owners and more. They will also be able to manage the front desk and maintain the facility in labs, animal hospitals and clinics. This program is designed to prepare the participant for a Veterinary Assistant position.

## Program at a Glance

Our program provides instruction in the following essential areas:

- Skill and confidence in interacting with animals and their owners.
- Utilize veterinary medical terminology in speech and documentation.
- Identify the major breeds of various animals.
- Demonstrate the basics of responsible animal care.
- Describe the roles and responsibilities of a veterinary assistant.
- Demonstrate measures that prevent injury to animals, their owners and the veterinary team.
- Outline proper office and compartment cleaning methods.
- Communicate effectively with a veterinary team.
- Assist a veterinarian with caring for animals and assist with surgical and treatment procedures.
- Handle animal specimens correctly and process them accurately.

*\* For complete program details, please call 888-766-1770 for a Student Advisor.*

## What Are the Career Opportunities?

Graduates of this program may find career opportunities in the following areas:

- Veterinary Clinics
- Veterinary Hospitals
- Veterinary Labs
- Human Society
- Animal Rescue Groups

## What's the Career Demand?

Employment of veterinary assistants and laboratory animal caretakers is projected to grow 10 percent from 2012 to 2022, about as fast as the average for all occupations.

- Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, 2014-15 Edition, Veterinary Assistants and Laboratory Animal Caretakers.
