

Glendale Community College - **AthPE 122- #4016 & #4017 - (Spring 2017)**
Tuesdays & Thursdays - 1:00 to 5:00 –Instructor: Coach Todd Tyni – Men’s Golf Team

Course Instructor and Contact Information

I have over twenty years of coaching experience as the boys and girls golf coach at James Monroe High School and Valley Academy of Arts and Sciences. I also was the Tournament Director for the LAUSD Boys City Section Championship / CIF Southern Section Qualifier for eight years. In addition I have taught Beginning/Intermediate Golf at GCC since 2010..

I am currently an adjunct faculty member of the Physical Education Department and since this is a part time position, I do not have an office. Therefore, my office hours will be after every practice at 5:00 pm. Feel free to contact me at the Glendale CC email address ttyni@glendale.edu. You may also reach me by cell phone (818) 489-0359.

Course Description

Since this is a team class and the students are members of the GCC Men’s Golf Team with advanced abilities, they will be given instruction and practice in advanced techniques of the golf swing, chipping, putting, rules and course management during practice at our home course, Oakmont Country Club.

Course Objective

Develop the abilities to compete at the highest level of California Community College and Western State Conference levels.

Course Schedule and Location

The class will meet every Tuesday and Thursday from February 21, 2016 until June, 2016 (WSC and State Finals) from 1:00 p.m. to 5:00 p.m. Instruction and practice will occur at Oakmont C.C. WSC matches will occur at various golf courses on Mondays during the season.

Course Requirement and Attendance Policy

This is a participation course and since it meets twice a week and participates in a match once a week, attendance is critically important. Qualifying for Monday matches will occur on the Tuesday and Thursday prior to the match. If for some reason you cannot make a practice, it is mandatory that you contact me by email or cell phone.

Grading

Approximately 10 % of your grade will be course research, 80% of your grade will be class attendance and participation, and 10% of your grade will be the Final.

Acknowledgement of Risk

This is a course which involves physical activity and is played outdoors. It's important that you understand that there are risks involved whenever you participate in outdoor activities. While we do our best to provide a safe environment, we cannot always guarantee your safety, especially on a public golf course. Please help the instructor keep the class safe by watching for situations that can cause injury and inform the instructor and fellow class members if needed. Please be aware of those around you as you practice your golf swing.
