**IPCC Mission Statement**

The IPCC models and monitors continuous quality improvement to ensure institutional effectiveness. The committee oversees college planning and program review; assesses the effectiveness of planning; makes recommendations for sustained quality improvement; develops strategies to promote college-wide dialogue and participation in the integrated planning process; and identifies trends that reveal institutional and student needs. These objectives are achieved by the strategic use of institutional data (including program review), accreditation standards, federal and state regulations, and community input as guiding principles for assessing institutional effectiveness.
