# Arts, Media and Entertainment

The Arts, Media, and Entertainment industry sector is big business in California. This dynamic sector is relevant statewide, with most of the major employers concentrated in the southern part of the state. It offers jobs that require a vast range of creative and technical knowledge and skills.

The pathway actually splits into three different scenes, each leading to an incredible variety of careers: Media and Design Arts (artists, broadcasters, journalists), Performing Arts (actors, dancers, musicians) and Production and Managerial Arts (producers, managers, engineers).

Choose this path and you'll challenge both your creative and your technical side. You'll study classic art forms one minute, then work with cutting-edge technology the next.

You'll sharpen intangible skills like flexibility, problem-solving and interpersonal communication. And you'll gain invaluable experience in teamwork, decision-making and creative thinking—skills you'll need to thrive in today's media-rich environment.

**How much can you make?**

## Technical Level Careers

(with AA or AS degree or certificate)

Stage Manager

Recording Studio Assistant

Special Effects Coordinator

Web Designer

Photographer

Graphic Designer/Artist

Film Maker

Camera Operator

## Professional Level Careers
