

How to Move Your Moodle Course Materials Into Your GCC Canvas Courses

THE MOTHER OF ALL CANVAS TIPS:

Don't use Internet Explorer!

Canvas and IE do NOT play well together — you will lose functionality (and if you are like me, you'll assume you are doing something wrong...))! Most of the experts say that Google Chrome works best, but I have been using Firefox exclusively, and have not run into any problems.

(I haven't used Safari heavily on my Mac, but I do know that Canvas behaves well within my iPad browser.)

LATE BREAKING NEWS... a helpful faculty member and Mac user reports that she has been using Safari pretty much exclusively and has not encountered any problems.

This is from experienced Faculty using Canvas! Chrome browser is recommended.

First, A Quick Review on How to Back Up Your Moodle Course Materials:

To create a Moodle .mbz backup file to upload into Canvas (see next page)...

- In your course, click the “Backup” text.
- Click the “Jump to final step” button

OR

- For a more detailed set of step-by-step instructions, click on the link below:

[How to Back Up and Download Your Moodle Course Materials to Your Desktop](#)

EXAM 1

You can now put your finishing touches on the course content. Don't forget to publish it when you are ready for your students to see it.

The screenshot displays the Canvas LMS interface. On the left is a vertical navigation sidebar with icons for Account, Admin, Dashboard, Courses, Calendar, Inbox, Commons, and Help. The Help icon is highlighted in yellow. A white 'Help' modal window is open, listing several options: 'Canvas Support Hotline for Nights and Weekends' (with a red arrow pointing to it), 'Search the Canvas Guides', 'Report a Problem', 'Ask the Community', and 'Submit a Feature Idea'. The background shows a course page with a 'my new course' header and a 'Coming Up' section with buttons for 'Start a New Course' and 'View Grades'.

You can contact this number after 7pm weekdays and all day weekends for support: (844) 871-3927. If you want to fill out a support ticket, click on “Report a Problem”.

Help [X]

File a ticket for a personal response from our support team.

For an instant answer, see if your problem is addressed in the [Canvas Guides](#).

Describe the problem with as much specific detail as you can, course names, ticket numbers, what the problem is, etc.

The image shows a screenshot of the Glendale Community College Canvas user interface. On the left is a red navigation sidebar with icons for Account, Admin, Dashboard, Courses, Calendar, Inbox, and Commons. The 'Help' icon is highlighted. A white 'Help' modal window is open in the center, containing the following text:

Help [Close]

File a ticket for a personal response from our support team.

Subject

[Text input field]

Description

[Text input field]

Include a link to a screencast/screenshot using something like [Jing](#).

How is this affecting you?

[Dropdown menu: Please select one]

- Please select one
- Just a casual question, comment, idea, or suggestion
- I need some help, but it is not urgent
- Something is broken, but I can work around it for now
- I cannot get things done until I hear back from you
- EXTREME CRITICAL EMERGENCY!

A large red arrow points to the dropdown menu. The background shows a blurred view of the Canvas dashboard with a 'Coming Up' section and buttons for 'Start a New Course' and 'View Grades'.

Select one of these descriptive problem identifiers. Try not to select the “EXTREME CRITICAL EMERGENCY” option unless it is really an extreme critical emergency.
