NEW BAJA COURSE OFFERING!

Geology 104 (2 units) is a field study of geologic features within several geologic provinces.

Emphasis is placed on the recognition, interpretation, recording, and reporting of geologic information observed in the field.

**6-week course, including 6 days in Baja:
January 9-February 15, 2018**

Total Cost is \$499 plus visa and GCC tuition/fees

The lecture portion will meet two hours during Mondays, Tuesdays, and Wednesdays for four weeks on campus. The laboratory portion will take place in the vicinity of the Baja Field Station 8 hours per day for 6 consecutive days.
