

Creating Video Inside of Canvas

The screenshot displays the Canvas LMS interface. On the left is a red navigation sidebar with icons and labels for: Glendale Community College, Account, Admin, Dashboard, Courses, Calendar, Inbox, Commons, and Help. The main content area shows a discussion post titled "Video in Canvas" by Constance Lantz, dated Apr 26 at 3:25pm. The video player shows a woman with short brown hair wearing a red shirt, with a play button overlay. Below the video are controls for search, unread status, and a "Subscribed" button. A "Reply" button is visible at the bottom.

Canvas has a video recording feature built into the Canvas course environment. You can add warmth and presence to your online assignments by adding video in Discussions, Assignments, even your SpeedGrader page.

You will need a web camera to capture your presentation. You can download the video when it is complete and have 3C Media do your captioning if you like. You can do your own captioning, but you would need to learn the Amara application. I recommend doing a test clip before you begin to check your audio.

Record/Upload Media

In this example, we have created a Discussion forum. In the text field, click on the button for “Record/Upload” to add your recording.

The screenshot shows a web application interface for Glendale Community College. On the left is a dark purple sidebar with navigation links: Home, Announcements, Assignments, Discussions, Grades, People, Pages, Files, Syllabus, Outcomes, Quizzes, Modules, Conferences, Account, Admin, Dashboard, Courses, Calendar, and Inbox. The main content area is titled 'Record/Upload Media Comment' and has two tabs: 'Record Media' and 'Upload Media'. Below the tabs is a 'Title:' input field. A large black rectangle represents a video player. Overlaid on the video player is a white 'Adobe Flash Player Settings' dialog box. The dialog box contains the text: 'Camera and Microphone Access', 'https://gcc.instructure.com is requesting access to your camera and microphone. If you click Allow, you may be recorded.', and two buttons: 'Allow' (with a green checkmark icon) and 'Deny' (with a red prohibition sign icon). A large red arrow points to the 'Allow' button.

This pop up window will come up. Click on "Allow".

Record/Upload Media Comment

Record Media

Upload Media

Title:

00:04

LED level meter: Red, Yellow, Green

Before you start do a test video to check your audio levels. You can see here on the LED level meter on the side that my audio level is too high, and that will add distortion to my video sound.

The screenshot shows a web application interface. On the left is a dark purple sidebar with the Glendale Community College logo and navigation links: Account, Admin, Dashboard, Courses, Calendar, and Inbox. The main content area is titled "Record/Upload Media Comment" and has two tabs: "Record Media" and "Upload Media". Below the tabs is a "Title:" input field. A video player is embedded, showing a woman with short brown hair wearing a red jacket. At the bottom of the video player, there is a "Save" button, a red recording indicator, and a progress bar showing "00:04/00:08". A large red arrow points from the bottom left towards the "Save" button. On the right side of the interface, there are menu icons and a "Published" status indicator.

Once you have finished and clicked anywhere in the video frame to stop the recording, you can play the video and decide if you want to keep it. If you do, click the "Save" button.

The screenshot shows an HTML Editor interface. On the left is a red sidebar with the Glendale Community College logo and navigation links: Account, Admin, Dashboard, Courses, Calendar, and Inbox. The main editing area has a top toolbar with various icons for text formatting (bold, italic, underline, text color, background color, strikethrough, bulleted list, numbered list, indent, outdent, superscript, subscript, link, unlink, image, link icon, video icon, audio icon) and a paragraph dropdown menu. The main content area contains a text box with a play button icon and the text "This link will be replaced with a preview icon for the embedded media". Below this is a red text comment "this is a media comment". A large red arrow points to the text box. At the bottom, there is an "Attachment" section with a "Browse" button and the text "No file selected". The word count "5 words" is visible in the bottom right corner.

This is what you will see initially. It will be replaced by a preview icon once you Save or Save and Publish.

The screenshot displays the Canvas LMS interface. On the left is a navigation sidebar for Glendale Community College with options like Account, Admin, Dashboard, Courses, Calendar, Inbox, Commons, and Help. The main content area shows a discussion post titled "Video in Canvas" by Constance Lantz. The video player shows a woman in a red shirt in an office. Below the video is a discussion prompt: "Please discuss the key points in this video by clicking on the reply button. Also respond to at least two other replies from your fellow students." At the bottom, there is a search bar, filters (Unread, eye icon, up/down arrows), a "Subscribed" button, and a "Reply" button. A red arrow points to the "Reply" button.

Your students can now watch the video and reply to answer the questions that you included with your video.

Page 1 of 2 ZOOM

Discussion assignment got locked at an earlier date

My Discussion assignment got locked on an earlier date (06/08) than the due date (06/12) or the end of the available dates (06/05 - 06/15). I also checked Module's "Lock until". The Module was set to Lock until 06/05. So, it should be unlocked by now (besides, students were submitting posts with no problem, until it got locked on 06/08 by 11:59pm, which means Discussion assignment was available to students and it got locked suddenly before the end of the assignment). I also checked "Close for Comments" and "Open for Comments" options. This cannot be the problem, because these options appear after the due date. The due date is 06/12, and my Discussion assignment got locked on 06/08. So, how can I unlock this Discussion assignment?

[Ruben Ramirez](#) Jun 12, 2017 7:15 PM
Correct Answer

Good news! It looks like we found the way to fix it. A person from our eLearning Center helped me to fix it. She told me that another person in our school had the same problem.

Ok, this is what we did.

The easiest way to add captions to your video is to download it to your desktop and then upload to 3C Media. I will include a separate step by step tutorial on how to register, upload media and ask for captioning in a separate tutorial. To download it, you must click in the video frame WHILE THE VIDEO IS PLAYING. Click "Save Video As"

The screenshot displays the Canvas LMS interface. On the left is a red navigation sidebar with icons and labels for: Grades, People, Pages, Files, Syllabus, Outcomes, Quizzes, Modules, Conferences, Collaborations, Chat, Attendance, GCC Library, Badges, Google Drive, CCCConfer, ConferZoom, 3C Media, and Settings. Below these are icons for Account, Admin, Dashboard, Courses, Calendar, Inbox, Commons, and Help. The main content area features a video player showing a woman in a red shirt. A context menu is overlaid on the video, listing options: Save Page As..., Save Page to Pocket, Send Page to Device, View Background Image, Select All, View Page Source, View Page Info, Inspect Element, and Take a Screenshot. A red arrow points to the video frame. Below the video player, there is a text prompt: "Please discuss the key points in this video by clicking on the reply button. Also respond to at least two other replies from your fellow students." At the bottom, there is a search bar, an "Unread" button, a "Reply" button, and a "Subscribed" button.

If you click the video frame when it is not playing, you will see this, which is not much use to you. It's a weird quirk of Canvas.

This window will let you name it and save it to your desktop.

It will look like this.

WHAT IS 3C MEDIA SOLUTIONS?

- ORIGINALLY KNOWN AS “CCCSAT” (EXISTING SINCE 2000)

- NOW PART OF CCTECHCONNECT PROJECTS (WITH @UNE AND CCC Confer)
- CCTECHCONNECT IS FUNDED BY THE CALIFORNIA COMMUNITY COLLEGES CHANCELLOR'S OFFICE AND IS HOUSED AT PALOMAR COLLEGE
- 3C MEDIA SOLUTIONS OFFERS SERVICES TO CCCCO SYSTEM FACULTY AND STAFF

There is a separate .pdf on 3C Media that walks you through how to register, upload your video and request captions that you can access along with this tutorial. 3C Media is a free video hosting site provided by the Chancellor's office.
