

# SIERRA VISTA OPEN WINTER 2018

## WELCOME TO SIERRA VISTA!

Glendale Community College's newest building is more than just the largest structure on the Verdugo Campus, it's a three story facility that streamlines Student Services while offering cutting edge educational resources.

The first floor includes GCC's award winning journalism department, the Faculty Innovation Center and The Learning Commons a collaborative area of more than 7,500 square feet where students can study or relax with their peers and enjoy a snack from the coffee kiosk.

The second floor houses Culinary Arts where students will utilize a state-of-the-art kitchen and catering facilities. In addition, the second floor features more than a dozen hi-tech classrooms, an anthropology lab and several faculty offices.

The third floor strategically places all Student Services in a one-stop centralized location making it easier for students to achieve their educational goals as members of GCC's premier learning community.
