Transfer Planning Worksheet

Students who began college in fall 2015 or after:

The GE requirements on the following pages apply only to students who finished high school and started college in fall 2015 or after.

Students who began college prior to fall 2015: (excluding summer terms)

You will need to follow our previous General Education program. Visit **admission.usc.edu/transferplanning** to download the Transfer Planning Worksheet for the previous General Education Program.

GENERAL EDUCATION

USC's General Education program is designed to introduce you to the breadth of knowledge you will need to be a well-educated person in the 21st century.

With careful choice of classes, students can meet the following 10 requirements with eight courses:

- Eight courses within the six Core Literacies: one course each in The Arts, Life Sciences, Physical Sciences, and Quantitative Reasoning; and two courses each in Humanistic Inquiry and Social Analysis.
- Two courses in Global Perspectives: one in Citizenship in a Diverse World and one in Traditions and Historical Foundations.
- Some Global Perspectives courses will satisfy requirements in the Core Literacies as well. A single course can satisfy one Global Perspectives and one Core Literacy requirement at most.
- Transfer students must complete two GE courses at USC Dornsife College from among the six Core Literacy categories.
- Once enrolled at USC, students must complete all remaining GE Core Literacy requirements at USC.
- Transfer students are not required to complete the General Education Seminar (GESM) required of first-year students.
- A course taken at another institution must be at least 3 semester units or 4 quarter units to be eligible for GE credit.

Additional information about the 2015 General Education Program is available at **dornsife.usc.edu/2015ge**.

COURSES REQUIRED FOR ADMISSION

Writing and math are required for all transfer students. Students intending to study science, business, engineering, architecture or dental hygiene are required to complete additional courses before transferring. Refer to pages 12-15 for details.

WRITING/COMPOSITION

Strong writing skills are essential to success at USC. All undergraduates at USC are required to take two writing courses: one lower-division and one upper-division course. The upper-division course must be taken at USC.

Successful transfer applicants will complete a course equivalent to the lower-division requirement, **WRIT 130**, before applying for admission. Typically the second course in a college composition sequence satisfies this requirement.

If your school does not offer a course equivalent to **WRIT 130**, you should take the strongest composition course available. This course may not be taken on a Pass/No Pass basis. Professional, technical, creative and remedial writing courses will not satisfy this requirement.

If you are unsure if your writing course is equivalent to **WRIT 130**, or if it does not appear on any current articulation agreements or histories, keep the syllabus and papers for later review by USC.

MINIMUM MATH

Advanced or Intermediate Algebra

You are expected to have earned strong grades in at least three years of high school mathematics, including **Advanced Algebra** (**Algebra II**) or **Intermediate Algebra** at the college level with a grade of C or better.

Majors in the social sciences, business and architecture at USC require specific mathematics courses and achievement beyond this level. Science and engineering majors can become stronger candidates for admission by completing the additional coursework listed on pages 12-15 of this brochure, or found on the respective departmental website.

If lower-division mathematics courses are required by your major, we advise you to complete them early in your college studies, prior to applying to USC.

Please refer to Additional Coursework by Major on pages 12-15 to find out if your intended program of study requires additional coursework.
