Welcome

The [Vision for Success](#) puts forth bold goals. Meeting those goals requires us to change our structures and processes so that they are focused on student success.

We are committed to providing the tools, resources, and communications that colleges need to make that change happen.

This includes all of the resources for colleges and districts as they work to align their local goals with the system's, available in the [Vision for Success community](#).

Also available is a module on how trustees can support institutional reform, which includes a brief overview of the goal alignment process, here: [Leading Guided Pathways Reform: The Role of the Board](#).

Once you are in, mouse over the "Learning" menu option, and choose "Learner Home".
