GOVERNMENT LIES & CONSEQUENCES 1960-2019

This video-lecture presentation analyzes lies and misstatements by presidents and other government officials from 1960 to 2019. It includes outright lies as well as deliberate deceptions, misleading statements, and “lying with the truth.” This video is especially prepared for this lecture, mostly with clips from Prof. Marashlian’s massive library of recordings he has amassed over the last 40 years on VHS cassettes.
