MSC: (Isabella Mardirossian/ Arthur Ward)
- V. Approval of Legislature Minutes – May 25, 2021**
MSC: (Arthur Ward/ Keemia Mahmodian)
- VI. Report of President/Student Trustee - Elise Dulay**
 - Good morning everyone!!
 - Welcome to the last legislature meeting, going into this semester I didn't expect to be in this position, giving the presidential report, going to the trustee meetings, and doing everything the president is supposed to do. I wasn't expecting to be in this position right now and meeting all of you. I expected to do my classwork, meet friends, and transfer, but I had a much richer experience than I could've imagined by being part of this organization.
 - I hope for those of you who are continuing on, in the exact position or in a different one that you are able to make the most out of your experience.

- I am really grateful for this experience and I hope that you are all able to make the most of your time here at GCC. Being a part of this community has helped me get through the pandemic and the online learning environment.
- We have a banquet coming up, I will send the flyer out it will be on June 12, we will have an in-person hangout in the morning and a virtual banquet at night. There will be food for the virtual banquet, will we be giving out postmates gift cards, so we can all eat together
- That is all for our last meeting.
- Thank you all for making this semester great,

VII. Report of Administration Committee - Diana Morales

- Good morning everyone
- I hope everyone studying hard for finals so that way we can all finish off strong
- The admin committee held our second educational event last Wednesday, we had a guest speaker Aida Avanosian from the Scholarship Center at GCC who presented a PowerPoint with the key ideas and some good inside tips when applying for scholarships.
- I am proud of all my senators and all of their hard work, I know how stressful everything can be considering finals being just around the corner.
- I am extremely proud of everyone, and I'm looking forward to the banquet and reflecting back on everything we did as a whole.
- Thank you, for making this semester a memorable one

VIII. Report of Finance Committee - Nicole Garrett

- Hello everyone,
- I hope everyone had a nice relaxing long weekend before finals start. Study hard and when preparing for your finals and feel confident in yourself, also don't forget to take care of yourselves.
- The finance committee is finishing up on the last emails on the final budget notification emails to a couple more departments. Also, we want to encourage any more financial needs or requests

that anyone may have, we urge you to go ahead and submit them because we sooner than later because we are at the end of all of the money for financial requests for any event.

- Thank you

IX. Report of Activities Committee - Nyah Gaitan

- Good morning
- First and foremost there are no updates regarding the Activities Committee, we had our final meeting last Tuesday, we talk about some final things and brought our committee to a close. However, I am still working with Alex Lian and athletics to make a final farewell. This will be a short three-minute video including all the athletes and ASGCC.
- I just want to thank you all for all the hard work each and every one of you has put in and it has been a pleasure working with you all.
- Thank you, everyone

X. Report of Relations Committee - Arno Abrahamian

- Good morning everyone
- Happy last day to everyone here, I am extremely proud of all the senators for putting in the extra initiative this year and joining ASGCC with the hopes of bettering the student experience. We have been through a bit of a rough patch with the pandemic and the remote learning environment but I can happily say that we're nearing the end. I want to give a big shout-out to all of my senators for giving me the opportunity to lead some of the best students that I have ever worked with. This has truly been one of the best experiences for me.
- My committee and I had something we were working on last week, we went through our current social media page and worked on some final posts to finish up the semester, as well as updating the website. We've also been keeping up with the DMs we've been getting from our Instagram page.
- Thank you everyone for a wonderful year, it was a pleasure working with you all

XI. Report of Organizations Committee - Max Von Winckleman

- Good morning

- I want to thank everyone for your continued perseverance and hard work throughout the entirety of this year. It has been an incredible experience and an honor to have been able to work alongside every single one of you.
- I would like to give a shout-out to my committee, I wouldn't have been able to do anything without any of you. I also want to thank the exec. Committee for always putting their best foot forward in every situation.
- Thank you, everyone

XII. Report of Officers

XIII. Special Reports/Governance Committees

1. Guided Pathways

- Regarding AB 705 there was a growth mindset workshop and they would like to know more about its implementation at GCC to determine the funding that's needed for the future. The program is not set to collect data which makes gathering all the information difficult but they are on my path timing and streamlining.
- The onboarding informational group had its final meeting and gathered feedback about GCC student orientation, and the school is moving forward with the orientation updates.
- Outreach and counseling departments are setting up group counseling to discuss the GCC onboarding process and their experiences regarding the student's voice. They are discussing different ways on how to collaborate with professional development, as well and working on how to use the collected data to get meaningful information about student experiences in the online education environment.
- Navigate is divided into sectors, but are worried that there aren't enough representatives for each category. They are focused on getting the program maps developed because when the students go into the academic planning section, they get a plan of all the maps they need to take and a list of the maps they need to take as a requirement, and that's their priority as of right now.

2. Study Abroad

- We went over some of the programs in the developmental stages, like our winter 2022 program because we need to finalize things such as getting tested, or vaccinated for you to be allied to attend or if it's still required to quarantine.
- A few programs have been delayed until further notice, such as the Armenia trip. We have also gone over the Safe Travel protocols as well as some new updates on the extension codes.

3. Scholars Program

- Almost all committees have put out the community service events and fundraisers they have planned. Went over and reviewed those events during the meeting, outreach fundraiser and social events have all been finished up.
- Arts & Culture is in the process of having their journal published and printed, they also have a scholars recipe book, where students submit a recipe from their culture along with the instructions.
- The community service committee has earned community service credit through the color me smile event which ends on June 4, 2021.
- The program's last general assembly was last Thursday where they announced the new 2021-2022 cabinet and lastly, the program director has started to review application submissions for the Fall 2021 admissions.

4. Library and Information Competency

- During the Fall the library will remain closed but is still open for anyone to come in and pick up any resources or devices. They are also working on a website for the library, to make it easier to filter and search for what you need.

5. CoDE

- We talked about consent forms from professors to allow their classes to be recorded, this form has been legally approved and will be filled out by every student once a semester.
- 35D data forms have also been approved, which are a petition set of classes to be developed as a three-part online class or as hybrid courses. It seems as our work with

Proctorio is coming to a close, GCC is looking to partner with a website that won't be difficult with flagging students and collects less information from the students

XIV. Guest Speaker

1. Drew Sugars - GCC Logo

- There is a lack of signage on the campus, making it difficult to find different buildings and locations on campus. This project is called the Wayfinding project. We will have a new map system that divides the campus into three levels the upper, middle, and lower campus. The map will be color-coded it is not finalized we are still working on small adjustments.
- Once we had support for a logo refresh we had an opportunity to tell a story with it. We went back and looked at the previous logos that GCC had. We noticed a pattern that all the logos have arches. This is because arches are all over the campus and we wanted to incorporate those arches and bridges into our logo. The bridges serve as a metaphor for the students because when they start out they are unsure of what they want to major in, what they want to achieve, and where they want to go. When they cross that bridge they cross all those challenges that they have faced and get to the other side of that bridge which is their goal. We also touched up the mascot and changed the font/lettering to give it more flair. The goal is to fully transition to having all the new logos and signage by this Fall.

XV. Old Business

XVI. New Business

1. GCC Degree/Graduation Requirements - Action Item

MSC: (Arthur Ward/ Kirk Mardirosian)

XVII. Report of Advisors

Tzoler Oukayan

- Good morning everyone

- There are changes coming through the governance system. It has been approved but now the next step is for it to go to college exec. They are the leaders of various constituency groups where they discuss and reflect on what the position of their stakeholders is.
- They are changing the way Glendale College awards degrees. This will allow students who are following the IGETC, CSU BREATH, and USC requirements to have an opportunity to get a degree without taking additional classes. It will not affect students who would normally be getting their AAS or associates in arts and sciences, all of their requirements stay the same. This allows more students to get degrees of transfer.

XVIII. Announcements/Information

XIX. Adjournment 8:10 am

MSC: (Nyah Gaitan/ Arno Abrahamian)

**Minutes submitted by Nareh Pirjanian
Senator of Administration
June 5, 2021**
