INFORMATIONAL REPORT NO. 4

TO: Board of Trustees

SUBMITTED BY: David Viar, Superintendent/President

REVIEWED BY: Michael Ritterbrown, Vice President, Instructional Services

PREPARED BY: Edward Karpp, Dean, Research, Planning, and Grants

SUBJECT: ENROLLMENT UPDATE

DESCRIPTION OF HISTORY / BACKGROUND

California community colleges' apportionment revenues from the state are based on the enrollments of resident students. Enrollments are converted into Full-Time Equivalent Students (FTES) numbers for apportionment reporting. The attached report includes updated enrollment numbers and projections.

One FTES, whether credit or noncredit, is defined by state regulations as 525 hours of student contact. Most credit courses use a weekly accounting method: They meet the same number of hours every week, and apportionment is based on a calculation of hours per week times number of weeks divided by 525. Credit courses shorter than a full semester (such as 8-week courses, or Summer and Winter courses) use an analogous daily accounting method. Both weekly and daily courses use a census date to determine enrollments and FTES.

All noncredit courses and a small number of credit courses use positive attendance accounting, which is not based on enrollment and class sessions per week but rather on the actual hours that students attend class. Each student's attendance is tracked for every class session. The total number of attendance hours is divided by 525 to calculate FTES based on positive attendance. FTES based on positive attendance is more difficult to project than FTES based on weekly or daily accounting because students' actual attendance must be tracked every day, rather than using a defined census date.

Due to the COVID-19 emergency, the Chancellor's Office has approved alternative positive attendance methods for classes held through distance education. The table included her shows actual FTES rather than FTES calculated by this method.

Many practicing photographers attend classes to refine and expand their existing skills. Courses are designed to encourage students to pursue individual projects while developing their technical ability. Students will complete a total of 8 units.

TO: Board of Trustees

SUBMITTED BY: David Viar, Superintendent/President

Ben Duran, President, PPL, Inc.

Lisa Sugimoto, Vice President, PPL. Inc.

SUBJECT: SUPERINTENDENT/PRESIDENT SEARCH

DESCRIPTION OF HISTORY/BACKGROUND

Background

The Board of Trustees voted at the October 19, 2021 board meeting to begin the process for selection of a new superintendent/president to replace David Viar upon his retirement effective June 30, 2022. As part of that process, the board determined the composition of a screening committee based on Board Policy 2431: Superintendent/President Selection that is "broadly reflective of the District's constituencies." The action called for the leaders of each constituency group to name its members who would serve. The following includes the members of the screening committee who have been appointed to serve.

The screening committee is scheduled to meet November 16, early February, and late February, and conduct interviews with the semi-finalists in early March.

Job Profile

BP 2431 also calls for district constituencies to be provided opportunities to suggest "qualities, characteristics, and qualifications for the person to fill the position." In addition, past job profiles used by the District in 2013 and 2010 identified the challenges, opportunities, and issues expected to be addressed, or being addressed by the District. During the period of October 12 – 21, 2021, the executive committees of the Academic Senate, Guild and CSEA and Cabinet members were asked to provide suggestions for inclusion in the job profile. Responses were included in an October 22 draft job profile that was shared with the executive committees of the Academic Senate, Guild, and CSEA, Cabinet members, Instructional Division chairs, ASGCC, and Board members. Comments on the first draft job profile were received through November 1 and used in the development of the November 2, 2021 draft two discussed and acted on at the November 9, 2021 College Executive Committee meeting. (see attachment 1)

Job Announcement

In preparation for informing the public and potential candidates about the position and the search process, a job announcement has been prepared and a website developed. The draft job announcement has been designed by the GCC Office of Communications based on review of recent materials used by other college districts who conducted searches this past year and the ones used by GCC in 2010 and 2013. (see attachment 2)

Timeline

With good progress made on the search process implementation since Board action in October, it now appears possible to advance the timeline so that Board action can be taken at the April 19, 2022 Board meeting on the selection of the superintendent/president. (see attachment 3)

NEW BUSINESS REPORT NO. 2

TO: Board of Trustees

SUBMITTED BY: David Viar, Superintendent/President

REVIEWED BY: Michael Ritterbrown, Vice President, Instructional Services

PREPARED BY: Hasmik Sarkissian, Office of Vice President, Instructional Services

SUBJECT: SABBATICAL REPORTS FOR FALL 2020 and SPRING 2021

DESCRIPTION OF HISTORY/BACKGROUND

According to the Collective Bargaining Agreement between the Glendale Community College District and the Glendale College Guild - Local 2276, the Superintendent/ President shall present the written reports of sabbaticals approved by the Sabbatical Committee to the Board of Trustees for acceptance.

The Sabbatical Committee received four reports from faculty members who have completed their leave periods. Two of those reports have been accepted and are summarized in this report. The remaining two have been returned to faculty for clarification and/or completion of approved project elements.

A summary statement of the sabbatical follows. The complete sabbatical report is available upon request.

Stacy Jazán – Language Arts (Fall 2020 – Spring 2021)

Dr. Jazán completed 2 @one courses: "Introduction to Course Design" and "Assessment in Digital Learning." Utilizing this knowledge of best practices in course design (whether the course be online or face to face), Dr. Jazán created a Spanish 101 Zero Textbook Cost course housed in a Canvas shell, utilizing OER as well as personally created "pages" and features within Canvas to comply with the Spanish 101 course outline of record. Best practices guidelines from the @one courses as well as the GCC Academic Senate's most recent recommendations regarding student equity were followed to optimize student learning and student achievement, as well as promote student equity. Dr. Jazán's Canvas course will be shared with the department of Spanish so that GCC instructors may teach with it if they wish. Finally, it is important to note that Dr. Jazán's contribution supports GCC's Master Plan and IMP in addition to AB 798 (2015) College Textbook Affordability Act. Dr. Jazán piloted this Spanish 101 ZTC in Spring 2021.

Amy Oliver – Visual & Performing Arts (Fall 2020 ONLY)

Amy Oliver has met and then exceeded the goals she set for her sabbatical project. She planned to complete her still-life project, The Current State of Things and undertake a new project about Ventura County. During her sabbatical year, she produced a self-published book of The Current State of Things using funds she raised in a Kickstarter Campaign and donated a copy to the GCC Library so students and other members of the community can see it. She also created 55 framed prints from this series and 24 framed prints for Open Spaces (landscape exhibit about Ventura County) which will be shown in an exhibit at The Gallery @ GCC in the spring of 2022 and then at the Ventura County Museum of Art and History in 2023. One of these pieces is currently at The Brand Library Gallery right here in Glendale, in the 49th Works on Paper Exhibit. The skills she learned this year will follow her into the classroom and enrich her classes for years to come.

• District Growth and Development

President's Build Back Better Initiative

Increase in Pell Grant Funding => \$550

An increase in this type of funding will support more economically insecure students in their efforts to persist in completion of their degrees. GCC serves

5,884 students (2019-20) receiving Pell Grants. In addition, the Pell Grant is a factor in the SCFF (Student Centered Funding Formula) calculation. There has been a precipitous decline in students being awarded Pell Grants at GCC over the last several years.

Broadens Title IV Financial Aid Eligibility

DACA (Deferred Action for Childhood Arrivals) students will benefit from this effort. In addition, TPS (Temporary Protected Status) and DED (Deferred Enforced Departure) students may benefit as well. This effort could potentially benefit GCC's AB 540 students. Approximately 2.3%, on average, of GCC's student population are AB 540 students.

Workforce Development

Potential increase in workforce development, apprenticeships, and sector-based training is included in the initiative. GCC's CTE programs could benefit from this investment. Since 2014-15 through 2016-17 GCC has exceeded its negotiated performance level with the state to place students into the workforce.

An increase of 50% of the Dept. of Labor's annual budget to support workforce development is proposed. This level of investment foreshadows an opportunity for GCC to grow its CTE programs.

Budget and Finance

Effect of Pandemic on SCFF

The statewide statistics show precipitous decline in FTES ranging between 15% - 20% across institutions of higher education. GCC's fall projection indicates a 12.1% decline. It should be noted that the hold harmless for California Community Colleges has a current maturity period of 2024-25. GCC's state apportionment is being supplemented by approximately \$5.6M.

Michael Ritterbrown, Vice President, Instructional Services

Attended ASGCC Leadership meeting to answer questions regarding modalities of class offerings. Discussion focused on the lack of remote or distance offerings particularly in the areas of math and biology. I explained that the administration and distance education faculty leadership are very aware of the necessity of distance offerings for students and that our data indicate that roughly 30% of students have a strong preference for remote and/or distance learning and that a portion of these students are not able to access learning that is not remote or distance based. Students in this last category are not able to complete their educational goals unless they access online classes at other institutions. Further, it is clear from data presented by Distance Education Coordinator, Piper Rooney at the October Academic Affairs meeting that Biology and Math are the two subject areas that have the greatest number of students accessing distance learning at colleges other than their home colleges. I assured the ASGCC representatives that the college recognizes the essential nature of access on the part of students to remote and distance learning and that we are working with all instructional areas, particularly math and biology, to ensure this access.

- Met with representatives from the Board of Registered Nursing with regard to the accreditation of our Nursing program. Accreditors were very complimentary in their statements about our program and our staff.
- Met with Title III and Title V grant leadership to plan for alignment of grant efforts with the College's Guided Pathways implementation.
- Congratulations to Dr. Shelley Thai, Biology, on the publication of a manuscript co-authored with Dr. Michelle Lum in the Journal of Bacteriology. The manuscript is based on research conducted by Dr. Thai and others and including original research conducted by students in GCC's Biology 298 research class.
- Attended Chancellor's Office webinar "Understanding Guided Pathways Key Performance Indicators" led by Dr. Valerie Lundy-Wagner. Discussion focused on scaling and assessing Guided Pathways implementation. The majority of the measures discussed have been in place at GCC for some time.
- GCC has entered phase II of the implementation of participation in the California Virtual Campus (CVC) / Online Education Initiative (OEI) program to increase student access to distance education and to make GCC a Teaching College, which will allow increased student access statewide to approved GCC classes.
- The Senate has initiated a task force to address academic honesty. The task
 force is chaired by John Fuhrmann, math, and will recommend institutional level
 approaches to increase awareness of the importance of academic honesty as well
 as measures to address concerns about the issue, including the increased
 adoption of project-based learning and authentic assessment.

Diana Morales, ASGCC President and Student Trustee

- The Associated Students of Glendale Community College collaborated with Student Activities to sponsor the Student Program and Services Fair that was held on October 28th. This was a successful on-campus event that allowed students to visit many booths and see what resources are available to them.
- The Relations committee from ASGCC has created an outreach video to share with classes. The purpose of the video was to provide exposure of who and what ASGCC is and does. In addition, we are promoting students to become student leaders for the Spring semester and encourage all to apply.
- Within our own ASGCC Executive team, there have been mid-semester leader check-ins. Throughout these check-ins, each Vice President provides an update of their committee and what projects they have completed as well as what they have planned.
