

## COURSE OUTLINE

### **ECT 49**

### **Electronics & Computer Technology Independent Study**

#### **Catalog Statement**

ECT 49 provides well-qualified students with an opportunity to explore a subject in greater depth than usual, to familiarize students with some basic research techniques, to interest students in possible career areas, and to take advantage of special academic interests. Emphasis shall be on individual research projects, library research and preparation of research papers. There is no prescribed course content. Students develop a research project, have it approved by the sponsoring instructor and appropriate division chairperson, then submit the finished project, which may be library research, or perhaps a supervised experimental program related to a specific course of instruction. Registration is open to any student at GCC who is currently registered for 6 or more units and who is admitted to Independent Study by the instructor. A student is limited to one Independent Study per semester and no more than 12 units credit toward the AA Degree or Certificate, and no more than 6 units per division. The units received may be acceptable for college transfer subject to the approval of the individual college.

Total Lecture Units: 0.0

Total Laboratory Units: 1.0-3.0

**Total Course Units: 1.0- 3.0**

Total Lecture Hours: 0.0

Total Laboratory Hours: 48.0- 144.0

Total Laboratory Hours To Be Arranged: 0.0

**Total Faculty Contact Hours: 48.0- 144.0**

Note: Independent Study are arranged by faculty in the Technology and Aviation Division. This course may be taken 3 times; a maximum of 9 units may be earned.

Prerequisite: Concurrent registration in 6 or more units.

#### **Course Entry Expectations**

Prior to enrolling in the course, the student should be able to:

- skills expectations: varies with subject and research area choice.

#### **Course Exit Standards**

Upon successful completion of the required coursework, the student will be able to:

- conduct independent discipline-specific research activities;
- demonstrate a specific in-depth knowledge in the discipline involved.

#### **Course Content**

Research project (48-144 hours)

**Total Faculty Contact Hours = 48.0 to 144.0**

### **Methods of Instruction**

The following methods of instruction may be used in this course:

- individual meetings with faculty advisor.

### **Out of Class Assignments**

The following out of class assignments may be used in this course:

- research project.

### **Methods of Evaluation**

The following methods of evaluation may be used in this course:

N/A

### **Textbooks**

No required textbooks. Readings may be assigned by Faculty Advisor.

### **Student Learning Outcomes**

Upon successful completion of the required coursework, the student will be able to:

- apply concepts and knowledge of discipline-specific materials to research projects, essays, and other assignments.
