

## Feeling under the weather? DialCare can help.

As a college student, we understand that your studies don't always allow you the time to get the medical care you need, even though you might be feeling under the weather. DialCare can help. DialCare is designed to provide you with a safe, secure, convenient and private means of seeking assistance from licensed doctors via virtual and telephonic consultations.

Virtual and telephonic consultations can assist you with conditions such as colds, the flu, rashes and more. This unique program offers an app-based interface, allowing you to engage in consultations not only over the phone, but via video chat as well so you can talk with DialCare doctors wherever you feel most comfortable.

### Physician Access

DialCare Physician Access is a modern, easy-to-use telemedicine solution for non-emergency illnesses and general care. Members have direct access to state-licensed and fully credentialed doctors, via phone or video consultations, to receive treatment and advice for common ailments, including colds, the flu, rashes and more. Doctors are available 24 hours a day, 365 days a year, allowing members and their families convenient access to quality care from home, work or on the go. When medically appropriate, a DialCare doctor may prescribe a short term, non-DEA controlled medication that they can pick up at the pharmacy of their choice.

#### When to use DialCare Physician Access:

- For non-emergency medical issues and questions
- During or after normal business hours, nights, weekends and holidays
- If member lives a significant distance from a primary care doctor
- When a primary care doctor is not available
- When traveling and in need of non-urgent medical care or advice

#### What conditions can be treated?

- Allergies
- Fever
- Respiratory infections
- Asthma
- Gout
- Sinus infections
- Bronchitis
- Insect bites
- Skin inflammations
- Cold & flu
- Sore throat
- Digestive issues
- Joint aches & pains
