

Language Equity Across Disciplines: INTRODUCTION AND CoP KICKOFF

Curious about what language equity is and how it is relevant to your discipline? Language (or linguistic) equity is a branch of DEIA that is relevant to all disciplines. Join us for an introduction and kickoff to a CoP (Community of Practice) that will help you understand how you can further support your students in their academic success by learning about and incorporating ideas from language equity.

We will define language equity, explore academic rigor, and learn how these ideas connect to your discipline and instructional priorities.

Note: We will be offering the same introductory workshop and community of practice kickoff twice, so please choose whichever time works best for you.

WELCOME WEEK

Wednesday, August 24, 2022

2:00 pm - 3:00 pm
