ALPHONSO GONZALEZ

2023-2024 STUDENT *of* DISTINCTION

STUDENT COMMENCEMENT SPEAKER

Alphonso Gonzalez is of Mexican and indigenous descent. He was born and raised in Los Angeles in the city of Boyle Heights where he still resides. As a child, Alphonso would help his father who worked as a mechanic. This not only sparked an interest in learning how things work, the experience built the foundation and desire for Alphonso to pursue mechanical engineering as his career goal.

After studying at Esteban E. Torres Engineering and Technology Academy, Alphonso began attending Glendale Community College in the summer of 2016. It was a strategic choice to start a new experience away from East Los Angeles. He had heard great things about the GCC campus which was far enough away from home to allow him to meet new people and build positive relationships and networks.

Alphonso faced many challenges throughout his educational journey, including tackling one of his hardest subjects, math. However, he took advantage of campus resources such as the Math Discovery Center

and the Learning Center to better understand the lectures. In addition, he joined study groups where peers helped one another.

Alphonso also joined La Comunidad where he was able to meet other students just like him. Sharing similar stories of challenges with peers helped Alphonso feel motivated and less alone. Soon after, he became a student worker in the Student Equity Office. Alphonso was building community, gaining motivation, and slowly starting to come out of his shell when the global pandemic knocked him down.

Among the many challenges and obstacles Alphonso faced, the COVID-19 pandemic was the most difficult he endured. He lost touch with peer mentors, Learning Center staff, tutors, and much more. Struggling to keep up as a STEM student during the pandemic was close to impossible. His disappointment in himself worsened as he watched his peers transfer and move on while he continued pursuing his science and math prerequisites. With all of this happening, Alphonso also endured the loss of three close family members, one after the other.

Coming out of the pandemic, Alphonso quickly signed up for in-person classes and explored on-campus activities. He participated in the Career Adventures seminar to learn more about engineering. He joined the Hombre a Hombre Program where he was able to get mentoring, counseling, and connect with his Latino peers. He signed up for Mentoring STEM Students of Color. Through this program, Alphonso became part of the Go Baby Go internship experience. With a team of other students, they modified a ride-on toy car for children with cerebral palsy and other physical disabilities. Through GCC's Team Internship Program, he was able to continue working on Go Baby Go. Alphonso and his peers were able to modify and deliver four cars to four families.

Wanting to give back to his community, Alphonso recently joined the Advancing Chicanos/Hispanics & Native Americans in Science (SACNAS) club. Alphonso facilitated a panel called "STEM Fusion" bringing professors that have worked in engineering projects to share their experiences.

After eight years at GCC, countless hardships and triumphs, forming many relationships and connections, Alphonso is now headed toward the next chapter in his life. He has been admitted to his dream school, Cal Poly Pomona, and will transfer in fall of 2024 to pursue a bachelor's degree in mechanical engineering. All of his experiences and knowledge gained at GCC have shaped who he is today inspiring Alphonso to leave campus as a proud Vaquero.

GCC's Early College Academy **Class of 2024**

We are proud to present the third graduating class of the Early College Academy (ECA) from Herbert Hoover High School. These students are graduating with their high school diploma from Hoover High School as well as an Intersegmental General Education Transfer Curriculum (IGETC) certificate and/or an Associate Degree for Transfer from Glendale Community College. Since joining the ECA in 10th grade, these students have completed a minimum of 45 college credits alongside their high school coursework. **GCC is extremely proud of our ECA Class of 2024!**

Distinguished Faculty Award

With the Distinguished Faculty Award (DFA), the Academic Senate recognizes excellence in a professor's area of expertise including teaching, counseling, and work with students. It also considers good college "citizenship," such as contributions to college life outside the classroom or primary service area as secondary criteria. Candidates for the DFA must have been at the college for at least ten years. The Senate has tried to recognize a variety of people in a variety of areas and for a variety of efforts. The recipient list includes great lecturers, people who have reached out to their students in exceptional ways, and people who have developed tremendous programs. The DFA was first conferred in 1987.

William L. Parker Award

The award, in honor of William L. Parker, a philosophy professor to whom it was first bestowed, is awarded by the Academic Senate based on long service to GCC. Criteria include multiple areas such as academic, professional and community service; recognition by faculty, staff, students and administration; and that the recipient's contributions will have a lasting impact on the institution. The award was first presented in 1993.

Exceptional Adjunct Award

The Exceptional Adjunct Faculty Award (EAFA) is given for distinguished contributions to Glendale Community College in the recipient's discipline, or for contributions and accomplishments in other professional areas. The EAFA recipient serves as a role model for the rest of the adjunct faculty. The award was first conferred in 2006.

Vision

We are committed to building community and a sense of belonging for all. Through innovative and meaningful learning experiences, students enrich their lives, imagine their futures, achieve upward social and economic mobility, and contribute to a more inclusive, informed, and just society.

Mission

We empower students to transform their lives by achieving their economic, educational, career, and life goals through our instructional programs, student services, and community partnerships.
